Subject: Additional Information Request

Frau Viol: Can you please forward this to Barbara Rapkewitz? Thanks.

Dear Barbara:
I would like to ask for your assistance in finding one additional reference to provide to the IOM. Given the authors, I feel certain there is a copy at INBIFO that could be provided to us for replication purposes. I am looking for:

Stinn W., Schnell, P., Anskeit, E., Rustemeier, K., Schepers, G., Haussmann, H.J. (1999). Chronic inhalation of room-aged cigarette sidestream smoke and Diesel engine exhaust in rats - Study design, aerosol characterization, and biomonitoring. Abstract/poster presented at the 7th Internatl. Symposium on Particle Toxicology, Abstract no. 47, Oct. 13 - 15.

Is there a pdf version of the abstract or poster that you could provide to me? The library here has had difficulty in obtaining copies through our document delivery vendor. Could you please let me know as soon as possible?

Thanks and kind regards,
Valerie
